

DAMP BASEMENT?

USE

DAMPWALL ENAMEL

**A paint especially made
for DAMP BASEMENT WALLS**

End the headaches of paint flaking and powdering off damp basement walls with Dampwall Enamel—a paint specially made to waterproof basement walls. Damp-wall Enamel seals in the dampness, keeping basements dry. It finishes to a tough, hard glaze and is easy to apply over water base paint.

A top-quality paint, Dampwall Enamel is lime, alkali and salt resistant. It seals mildew and mold, preventing any growth from eating through the paint. Dampwall Enamel comes in washable decorator colors.
